Article 28: To transact any business which may legally come before this meeting, and to listen to opinions of a purely advisory nature as regards to the conduct of Town affairs for the ensuing year.

Chris Pratt pays tribute to Mary Parker for 50 plus years of volunteer service to the Town Library and Town. Flowers were presented to her and she received a standing ovation.

Ann Sweet pays tribute to Steve Hamilton, who is retiring from the Planning Board, for his years of service as a member and then chairman.

Tim Aho, school board member, requests from the newsletter, a survey of residents on their opinion of the possibility of closing the Sullivan Elementary School. *A motion was made and seconded, voted, by voice vote, motion carries as stated. This motion passes, I so declare.*

Al Henry gives thanks to David Homer for his donation of now 2 automatic defibrillators to the Sullivan Fire and Rescue Department.

Eric White pays tribute to Roger Sweet who has stepped down from Conservation Commission Chairman, for all his years of service. He has been an inspirational and knowledgeable leader and is now currently conducting a Natural Resource Inventory for the town, which is mandated by the state.

Roger Sweet thanks the Sullivan Fire and Rescue for all their help during this past winters' ice storm. They went beyond their call of duty.

Ann Sweet pays tribute to Rick Hotchkiss who is retiring from his years of being a Selectman, and who was also on the Planning Board.

Cheryl Labadie also pays tribute to Rick Hotchkiss who went beyond his duties as a selectman and never took any wages while doing so. A large applause was given in his honor.

Motion was made and seconded to adjourn the meeting. Motion passed.

Meeting adjourned at 7:53 p.m.

Mary Hull
Town Clerk

TOWN CLERK & TAX COLLECTOR

I am hopeful that everyone is now familiar with the "new style" registrations that contain the barcode which can be scanned by Police. Beginning in September 2009, the State of New Hampshire added a surcharge to vehicle registrations. This surcharge is calculated by vehicle weight and was added to help fund the predicted shortfall of the State budget. This surcharge adds yet another burden to the citizens of New Hampshire.

As you can see from the Town Clerk's report, there was a decrease in the amount collected for motor vehicle registration fees from last year. Fewer people are unable to buy new vehicles or put more vehicles on the road. This is a definite sign of the hardship felt by many during the current economy.

I realize that the ability to pay property taxes can be difficult for our citizens. Thankfully, most received a bit of a break during 2009 due to a smaller school district apportionment and an increase in school funding from the State. As always, I enjoy meeting townspeople and, hopefully, can help when needed.

Respectfully submitted,

Mary Hull

Town Clerk and Tax Collector

DOG OWNERS must register all dogs over three months of age. Rabies certifications are required for registration. Dog license renewals are due by **April 30**. Owners are liable for dogs running at large. License Fees: \$6.50 new puppy; adult dogs: \$6.50 altered, \$9.00 not altered. If owner is over 65 years of age, fee for license is \$2.00 for first dog in household. A late fee of \$1.00 per month is charged beginning June 1. Civil Forfeiture for not obtaining a dog license is a fine of \$25.00 (RSA 466:13) in addition to registration fees.

VEHICLE OWNERS must register their vehicles with the Town Clerk. New registrations, renewals, decals, transfers and plates are available.

TOWN CLERK/TAX COLLECTOR OFFICE HOURS: Tuesday& Wednesday: 10 a.m.to 2 p.m.; Thursday: 10 a.m. to 2 p.m. and 6 p.m. to 8 p.m.

POLICE DEPARTMENT

Thank you to the Sullivan residents and all those who lent their assistance to the Police Department. 2009 was a busy year.

The department handled 15 accidents, 10 civil stand-by calls and many domestic situations. Along with patrolling, we received and responded to calls for ambulance, fire, animals, checking the welfare, alarms, drugs, and assisting motorists. We also received calls from outside police departments, insurance companies and various others. There were 147 phone calls to the Police Station and more than 500 faxes for officer safety, BOLs, missing persons, and others.

Sullivan Police Department was dispatched by Cheshire County more than 360 times for various calls. I have been fortunate to have Les Jackson assist we with every arrest. He has been a valuable asset.

We saw an increase in the number of domestic situations which may be due to stress caused by the current state of the economy. There were fewer automobile accidents and break-ins which may be due to the increased patrolling.

We are at your service 24 hours-a-day, 7 days-a-week. If you are in need of assistance from the police department, please call the following numbers:

**Emergency
Sullivan Police Department**

**9-1-1
847-3100**

**Karl Wheeler (home)
Les Jackson (home)**

**847-9728
762-4885**

Respectfully submitted,

Karl Wheeler

Police Chief

HIGHWAY DEPARTMENT

January/February/March

This year began with many snow and freezing rain storms. The Selectmen and Highway Department met with a FEMA representative to review the extent of the damage from the December 2008 ice storm. Maintenance on vehicles was performed between storms so as to be ready for the next storm. Debris removal from the ice storm was a continuous effort as more trees and limbs fell. As the weather permitted, we cleared the debris and transported it to the highway garage. On February 26, Henniker Crushed Stone delivered 244 ton of 1 ½" stone for the approaching mud season. On March 6, the gravel roads began to soften and crushed stone was applied as needed. Weight restrictions were posted on town roads March 11. With temperatures in the 40°F range for four days, we were real busy hauling stone to the gravel roads. Tim Aho was contracted to upgrade the generator switching panel to accommodate a new generator purchased by the Office of Emergency Management. The road rake came out of winter storage and the raking of gravel roads began on March 31.

April

Grading, raking, and hauling stone to gravel roads became normal operations during the first two weeks of April. Storm debris removal continued as it emerged from its winter cover and the wood was cut, split and piled in the woodshed. Mud season was more extensive than it had been in the past few years. The 2002 John Deere backhoe received its 5,000-hour service. Gravel roads were graded and raked again as the surface stabilized. Snowplows and sanders were serviced and put away. The FEMA representative returned to review their estimate of debris removal from the December ice storm. It was calculated that 11,000 cubic yards of debris needed to be removed from roadsides along with another 48 cubic yards to be removed from Sullivan Centre Cemetery. The debris located in the cemetery was removed April 21. Potholes located on paved roads were patched. The Selectmen and Highway Department met on several occasions to discuss how best to complete the removal of ice storm debris. It was decided that the most cost-effective choice was to purchase a wood chipper and perform the work ourselves. On April 29, a used wood chipper was purchased and debris removal began.

May/June/July

Weight restrictions on town roads were lifted. 1,100 pounds of trash collected during the roadside clean-up was brought to the Keene Transfer Station. Gravel roads were graded again. Rain or shine, many weeks were spent chipping brush. Gravel was delivered to the highway garage. More wood was cut, split, and piled in the woodshed at the garage. Due to an abundance of rain, the potholes located on paved roads were repaired again. G&S Tree Service was contracted to perform roadside mowing. Highway Department members worked behind, following the mower, cutting brush and trimming areas not accessible to the mower. The entrance to Ferry Brook Road was widened, dug out, and filled with recycled asphalt in order to prevent severe mud problems. Ice storm damage was removed and bushes were trimmed (with identification assistance from Roger and Ann Sweet) around the Civil War Monument. The wood shed was completely filled with another 16 cord of wood (with some piled outside the shed).

August/September

The towns of Nelson, Harrisville and Sullivan combined resources and worked together in order to resurface some paved roads. A roller and paver were rented by each of the three towns and one week was spent in each of the towns. In Sullivan, 388.89 ton of asphalt was applied on a section of Valley Road, 217.12 ton was applied on sections of South Road, and 80.29 ton was applied on Hubbard Road. In addition to the resurfacing work, the Sullivan Highway Department applied 216 ton of asphalt shim on South and Gilsum Roads during the last week of August and first week of September. It should be noted that it was the wettest summer (June, July, August) on record in Concord, NH. Some of the cracks in the pavement on Apple Hill, Old Concord and Valley Roads were sealed. I attended a Highway Law Seminar in Keene. Hard-pack was hauled to and sections of Boulder and Ferry Brook Roads were graded and rolled. Fred Jackson was contracted to haul winter sand. A total of 675 cubic yards of sand was purchased, hauled, mixed and covered. The sanders were placed in trucks in order to inspect and lube in preparation of the approaching winter weather. At the salt shed, walls were washed down, all apparent cracks were sealed and a new coat of sealer was applied to the concrete blocks. Debris left from the ice storm (and cleaned up by the Conservation Commission) in Jewett Park was chipped. More debris on Boulder Road was also chipped. Tim Aho was contracted to run electricity from the fuel storage building to the sander and salt sheds.

October/November

Wetland Permits for the replacement of culverts located along perennial streams were finally approved by the NHDES and the culverts were ordered and delivered. Unfortunately, we were not able to install any of the culverts before winter due to the high water levels. Several roads were re-graded to remove the crown for winter maintenance. A culvert was replaced on Boulder Road and two drop inlets were installed on culverts. Another week was spent chipping brush on Bolster Pond and Boulder Roads – the last for the year! Although, debris removal on the northern most section of Boulder Road remains to be done. We were fortunate to borrow a leaf blower from the Town of Nelson. Installed on the front of the backhoe, it was used to blow fallen leaves from ditchlines; this prevents the roads from washing-out during heavy rains due to plugged ditchlines and culverts. The use of the blower also reduces the amount of gravel needed to maintain roads since less gravel is lost in the process of leaf removal. The leaf blower was used at least once on all but a few roads. Missing (or stolen) road signs were replaced before the ground froze. In mid-November several days were spent digging back wet ditchline at Dunn Hill on Boulder Road to dry up the roadway. Key Drilling and Blasting was contracted for two days to blast ledge on Boynton and Gilsum Roads; it took three days to clean up rock, add gravel, and re-grade the affected areas.

December

Road work continued right up until the first snow. The first plow-able snow of 5 inches fell on December 5th. Thankfully the gravel roads were frozen as it makes the job of plowing easier. There was some vehicle maintenance to catch up on between storms. The storms in December consisted of light accumulations of mostly snow (instead of ice). On December 17th the large brush pile collected from ice storm debris (prior to the purchase of the wood chipper) was burned. All in all, it was a busy and productive year. No major repairs to vehicles were needed. I was able to complete the fourth and final level of the UNH T2 Road Scholar Program. The Highway Department members would like to express their gratitude for the many residents who were able to assist us this year. From diagnosing vehicles problems to removing a fallen tree limb from the roadway, thank you all very much.

Respectfully submitted,

Randy Smith

Road Agent

FIRE AND RESCUE DEPARTMENT

As compared to a few previous years, 2009 was a relatively quiet year for the Town and for the Sullivan Fire & Rescue (SFR) and the Forestry Departments, although many of us spent the spring and summer cleaning up ice storm debris.

Our Mission Statement; “To provide the best service possible to the Town of Sullivan through continuous improvement in training, certifications and equipment”.

Sullivan Fire & Rescue is very active with weekly training and meetings, maintaining our equipment so that it is in a constant state of readiness, and participating in various events to further support our community. We invite you to stop by on Wednesday nights for a visit and new members are always welcome.

THE CALLS

SFR responded to a total of 71 calls for Emergency Medical Services (EMS), Fire & Rescue, and Mutual Aid as well as other non-emergency service calls. Of these calls, 36 were for Emergency Medical Services (EMS) for trauma and non-trauma incidents, which accounted for the majority of responses, 13 Mutual Aid Calls to other communities and 22 Fire, Rescue & Forestry calls. Of these calls, there were two structure fires in town that were contained to the area of origin and several critical EMS calls.

Not reported in the call log are the numerous requests for other services. Several wood stove installation inspections at the request of homeowners or their insurance companies, one home fire safety inspection, two oil burner permit inspections, and a fire safety inspection of the Sullivan School. The Forest Fire Wardens issued over 50 fire permits in 2009, many of which were for seasonal camp fires.

The department maintained an average response time of 6.5 minutes. The response time is the elapsed time from the moment we are paged to the time we arrive on scene. Calls average in length from 1 hour for an EMS call and up to 12 hours for fire related calls. During times of extended power failures, such as many of us experienced this summer (which were related to PSNH equipment problems), or periods when there is a prolonged interruption in phone service, the fire station is staffed and radio communications are maintained with our Mutual Aid Dispatch Center. The station also serves as our Emergency Operations Center during these periods and during major incidents. During these events, anyone needing assistance or information is encouraged contact or come to the station.

THE HOURS

In 2009, members logged over 3,000 man-hours in response to emergencies, training, and the operation of the department. Sullivan Fire & Rescue is a volunteer department and members do not receive any compensation for these hours nor do they receive compensation for lost wages or expenses incurred when responding to calls or participating in training.

THE TRAINING

In 2009 Dave Eccles completed the second part of his Fire Fighter I training, Matt Moore and Adam Frink completed their EMT Intermediate training, and Mike Blanchard and I completed our First Responder recertification. Leif Jackson and Gene Hall completed the Emergency Vehicle Operator Course and will now take the CDL license exam which is required to operate our large apparatus.

All members participated in required annual Blood Borne Pathogen and SCBA training. CPR and AED recertification is again being scheduled for 2010. Members also participated in regional training, spring and fall sessions at Meadowood Fire School, in-house training and drills, and our annual Forestry Training. The in-house training included Auto Extrication drills, SCBA training, pump training and EMS training. Each month many hours are devoted to Fire and EMS training and department operations. A majority of this time is spent on various training evolutions with our equipment to meet your expectations for service and to meet the required certifications at the State and National levels. This training is critical in meeting the needs of our community to save both lives and property. It is often said that when someone calls 911, it usually means that "you're having a really bad day". Our goal is to provide the best service possible to you and your family which can only be achieved through continuous training.

THE DEPARTMENT

The Sullivan Fire Company (a non-profit organization of SFR) also had a number of fundraising activities last year. These included a booth at the Pumpkin Festival along with the annual yard sale. With these funds, the Fire Company set aside money to help offset the Department budget and assist individuals in our community. We continuously seek out the best pricing for equipment that we must purchase and maintain our equipment and facilities to the best of our abilities before seeking outside help.

In 2009, the Fire Company purchased additional uniforms and participated in the Keene, Claremont and Bellows Falls fire prevention parades, once again bringing home a number of trophies. Members of the Sullivan Congregational Church along members of the department hosted the September meeting of the Cheshire County Forest Fire Wardens Association. Ideas between the two groups have been discussed on future activities and the possible return of the Church Brunch or possibly theme dinners.

EQUIPMENT UPGRADES

In 2009 we upgraded numerous items in our inventory. We have added two additional SCBA air packs, four new SCBA bottles, a Rapid Intervention Team Bag. Turnout gear, outdated helmets, and the large Port-a-Tank frame and liner were replaced. From last year's Special Warrant Articles we added two sets of the "Jaws of Life", hydraulic rams and related equipment, two "Pelican" area lighting systems, traffic safety equipment as well as adding extra hand tools and extinguishers. Repairs on the dry hydrant were also completed.

For EMS equipment we purchased a second Pulsoximeter, two new Blood Glucose meters, added a second suction unit and also replaced AED pads and medical supplies.

As always, we would also like to express our sincere thanks to Scott & Susan Lake, owners of Northeast Emergency Apparatus, and to Gary Patnode for his help with hydro-testing all of our SCBA cylinders.

LOOKING AHEAD TO 2010

This year you will again see a decrease in our operating budget. I have reviewed all of the emergency services warrant articles for Fire, EMS, Forestry and Emergency Management such as capital reserves and special articles, and have kept them at a level that supports department needs and allows for future growth or equipment replacement.

Aside from the Capital Reserve Articles, on this years Town Warrant you will see only one Article for Forestry Department in the amount of \$5,000.00 This Article is for the purchase of a Class "A" Foam injector system for the Brush truck and for the replacement of the truck's 200 feet of "Booster Line" needed for safety reasons. This foam system injects firefighting foam into the water stream which allows the water to penetrate burning materials much more effectively than plain water. This will extend the firefighting capacity of the limited water supply on this truck. The article will also replace the hose on the "booster reel" which we saved from our 1975 International Fire Truck and mounted on the new Brush Truck. This hose has a rubber jacket which has cracked and become brittle over the years and has reached the end of its service life. We ask that you look favorably on this request.

In closing I would like to express my gratitude to you our residents for your continuing support of Sullivan Fire & Rescue Department, the membership for their continued dedication to the Town, to the members' families, the Selectmen, and the Police and Highway Departments.

Respectfully submitted,

Neil A. Henry Jr.

Fire Chief

EMERGENCY MANAGEMENT

In 2009 the Office of Emergency Management undertook two major endeavors: to update the Sullivan Hazard Mitigation Plan and to complete the Point of Disbursement Plan or POD Plan.

In addition, Michelle Degree, Maya Trudelle and I continue to serve as the Town's representatives on Regional Coordinating Committee (RCC) for the Greater Monadnock All Health Hazard Region. The RCC meets monthly to review and update the regional All Hazard Health Plan (AHHP) that began in 2006. This plan lays the groundwork for managing large-scale health emergencies.

The POD Plan

At the request of the State, the RCC combined the area towns in groups to form Points of Disbursement or PODs. Our POD towns include Sullivan, Nelson and Stoddard. Then we were tasked to create a POD Plan for the mass distribution of medications during pandemics or other mass emergencies. Our main POD site is in the Town of Sullivan. In the fall of 2006, work began on this plan but soon slowed due to a number of issues and little was accomplished. By mid 2008 things were at a standstill and the plan had yet to be started. In 2009, this office undertook the responsibility of coordinating POD activities. By the end of 2009, after many meetings and a lot of work by the POD members, a plan was in place and agreed to by the Selectmen of all three Towns and ready to be tested.

During this same time we all learned about H1N1 and at the onset it received major media coverage. H1N1 seemed as if it would become a large scale pandemic the likes of which we have not seen since 1918. Long story short...as the initial scare subsided and the vaccine became available, the vaccine was distributed throughout the State in a number of phases. During the fall of 2009, in one of the first vaccination phases, the first responders of our POD towns received the vaccine. Then in December, we began to see many H1N1 clinics around the area. These were coordinated through the Greater Monadnock Public Health Network and nurses from HCS. When I was approached to hold a clinic in Sullivan I felt it would be a great time to test our POD plan and I agreed to sponsor a clinic. Calling on the recourses of the three POD Towns, our POD members tested the plan at this clinic as though it was a large scale emergency even though we knew that there would be a moderate turnout from the residents of area towns. We were thrown a few curves as we opened the clinic but were able to make adjustments. By the end of the clinic we learned what did and did not work. We will continue to critique and make changes in the areas that need improvement. All in all, we hosted over 100 residents from the surrounding towns and a number of folks from as far away as Peterborough. For those of you who received the H1N1 vaccine at the Sullivan Clinic we thank you for your unknowing participation in our exercise and welcome your comments or concerns.

Hazard Mitigation Plan

In 2009 the town was required to completely update the Hazard Mitigation Plan. In July, I began the update process by reviewing all of the hazards identified in the original plan from 2004. I am pleased to report that all of the mitigation strategies identified in the original plan have been completed. Between 2004 and 2009, the Town also identified additional strategies which have been completed as well. The completion of our mitigation efforts was through the collaboration of all Town Departments, Committees and Boards. During the review process new mitigation strategies have been identified and I will be contacting the various departments and committees so that work may begin on these. The 2010 Mitigation Plan was completed in December of 2009 and approved by the Selectmen in January of 2010.

Other Projects

In 2008 & 2009 the town voted to fund a project to purchase emergency generators for the Town Hall, Highway Garage, Fire Department and Emergency Shelter. Four large portable generators and related equipment were purchased in 2009. Three are located in the Fire Station and the fourth is at the Highway Garage. These generators will enable the Town to continue to function during power outages as well as providing power to our emergency shelter.

At www.nhlibrarians.org/calculator.html, using the statistics for the library services at Sullivan Public Library in the past year, the value of those services comes to \$47,748. This calculates only the value of services used, not salaries, building maintenance, fuel, or utilities. In these days where budgets are tight everywhere, your tax dollars are serving you well at the library.

A new computer and printer were purchased for the librarian's office. This gave the librarian freedom to work on administrative, programming, and ILL tasks while patrons were using the other computer. Our dial-up Internet connection was discontinued and both computers now have satellite Internet access. This has made a huge difference in online work efficiency, and the public has appreciated having the higher connection speeds. There were numerous false alarms with the Mutual Aid call box this year. After numerous visits from the electrician and the phone company, this was repaired by a specialist in alarm systems.

The library now has two pages on the town web site. The first has information about the library and the Friends of the Library; the second has a list of events. The library maintains a page on Facebook. There is a new e-mail address as well.

The Friends of the Library purchased a Wii game system for the library. We currently own Wii Sports and it has been well enjoyed by folks in town. The Conservation Committee purchased a Kill-o-Watt unit for the library. At

the end of the year, nhsaves.com sent two more units in Cut the Carbon! kits. These easy-to-use items are available to borrow.

The old windows and storms were washed inside and out. The difference is amazing. This was paid for by the Friends of the Library.

The library applied for a grant from the Children's Literacy Foundation. We were accepted and received one hundred brand new children's books worth \$2,000. The grant included a story program for the school children with CLiF's executive director, Duncan McDougal. Our library grant was completely funded by a gift from Marie Wilkinson of Chicago. The books arrived in time for summer programs.

Our summer reading theme was "*Summertime and the Reading is Easy*." Twenty-six people registered with more adults than children. The library began an outreach to the children enrolled in the Access program this summer, bringing stories. This outreach has continued through the school year. Sullivan won the right to house the Coveted Ice Cream Cup for another year, winning over Gilsum by a mere 9.5 pounds. A patron improved the Cup after the competition and it now looks like there's a sundae in it.

The old front door was replaced with a one that is sturdier and energy efficient. The granite and concrete slabs were removed and a new set of level steps was poured. A handrail was also added for people's safety.

Some of the programs held included a storytelling Halloween event with Greg Pratt and building a disaster-preparedness kit with the American Red Cross. The HCS health clinics continue to be held quarterly.

Trustee Christopher Pratt was recognized by the Association of Historical Societies of New Hampshire for his outstanding work in the area of collection management. The award was given for his work managing the Sullivan Town Archives. This was the first time ASHNN has given awards, and it was a pleasure to see Chris being recognized for the high standards he has set for preservation in our town.

Respectfully submitted,
Denise McFarland
Librarian

CEMETERY TRUSTEES

In addition to the usual maintenance of the town cemeteries, work was done to repair and reset downed or leaning monuments. The majority of the damage was due to the age of the monuments although some damage was from the December 2008 ice storm. Most of the repairs were performed at the Four Corners Cemetery. Plans for the coming year include the removal of brush along the lines of the cemeteries; it is nearing the point of consuming roads and fences.

PLANNING BOARD

The Sullivan Planning Board had a rather uneventful year in 2009. There were a few inquiries regarding small land subdivisions that may be coming in the future, but other than that there was no formal activity.

Several members attended various training sessions that are provided by the State of New Hampshire throughout the year.

In April we were sorry to see longtime board chairman Steve Hamilton retire. He was a great asset to the board and he will be missed. Laura Lewandowski joined the board in May and in July another longtime board member, Joe Fitzpatrick, also retired. Joe was especially interested in agricultural planning in Sullivan.

The Planning Board is in need of new members. If you are interested in serving on the Board please contact the Selectmen or a Planning Board member for details. The Planning Board meets the first Wednesday of each month at 7 p.m. in the Town Hall.

Respectfully submitted,

Bob Switzer

Chairman

CONSERVATION COMMISSION

Town Forest

It is now time for the Winch Forest Management Plan to be updated; the conservation commission hopes to have this completed in the coming year. One of the multi-use plan objectives is education; we discussed the possibility of educational walks on the property. Another plan objective is continued maintenance; permit issues with the Meeting House Brook culvert have finally been resolved after nearly two years, and it can now be replaced.

Jewett Park

As we are all aware, the ice storm left lots of damage to be cleaned up last year. Jewett Park was no exception. On September 19, Roger and Ann Sweet, Randy and Sheila Smith, Hillaire Wilder, Richard Smith and Eric White tackled the daunting task of the clean up. A sizable amount of firewood was generated by the clean up, which was then distributed by Randy to families in need around town.

Historical Walks

The conservation commission is committed to identifying and protecting Sullivan's historical assets with the assistance of our town historian, Chris Pratt. Part of the process is to share the town's history through historical walks and on May 9, fourteen residents and former residents walked East Sullivan to learn about the former mill village that had occupied the banks of Otter Brook. The woodworking mills and old farm sites along Old Concord Road were also visited and discussed. Bob Switzer is videotaping these historical talks for the town archives. We encourage each of you to come out to one of these very informative walks in the coming year.

Roadside Trash Cleanup

On a beautiful spring day in May, more than fifty people rallied together to remove trash from the sides of Sullivan's roads. The conservation commission sponsored a luncheon after the cleanup that was attended by forty hungry volunteers. This effort yielded over 1100 pounds of litter left along our scenic roadways by thoughtless drivers. Eight hundred daffodil bulbs were distributed to those interested volunteers as a thank you from Litter Free NH to be planted around town. The conservation commission extends a thank-you to all those who participated with the roadside and town hall cleanup - your hard work is much appreciated.

Hazardous Waste Days

The conservation commission continues to provide the town residents with the opportunity to dispose of their hazardous household contaminants at the Keene Transfer Station at no cost. Without this opportunity it would cost the residents up to \$30 per gallon to dispose of hazardous materials. We hope that you all take advantage of this opportunity. The 2010 drop off dates can be found listed in the Keene Sentinel and on the town's website.

Wetland Issues

One of our mandates is to review applications for culvert permits prior to submission for DES approval. Four permits have been going through this process since April 2008 partly due to miscommunication and changes in DES regulations. These permits were finally approved this past fall. The commission would like to thank Road Agent, Randy Smith for his concern and dedication throughout this overly long process. We also reviewed ten Intent to Cut applications for possible wetland issues that might be encountered by loggers. The conservation commission contributed money to the Ashuelot River Advisory Committee for water quality testing in 2009 to replace funds that are no longer available from the state. This yearly testing, collected from all the towns along the Ashuelot River, helps to monitor the condition of this important and fragile watershed.

Conservation Education

Education is another one of our mandates as a conservation commission. Part of this mandate is achieved by contributing to the cost of a naturalist educator from the Harris Center to teach at the Sullivan School. Another aspect to this mandate is the Natural Resource Inventory that is nearing completion and is hoped to be published and made available to the residents in the coming year. The conservation commission supplied the town library with a Kill-a-Watt Monitor for use by the town residents. Thanks to Bob Switzer, the conservation commission now has a link on the town website. As time permits, we hope to add more content in the near future. You can also check out the conservation commission bulletin board inside the door of the town hall for information on upcoming workshops in the Monadnock area.

Town Line Perambulations

As required by the state, each town needs to locate, identify, and record the corner pins between abutting towns on a periodic basis. Last fall town representatives from Roxbury and Sullivan traversed one leg of our mutual boundaries to locate and record

the corner pin near Houghton Ledge. The other three corner pins near town roads were also located and recorded with GPS. Plans to perambulate the remaining town boundaries with abutting towns are in the works.

Meetings and Workshops Attended

There were several workshops and meetings that were attended by commission members this past year. Besides the Annual Meeting of NH Conservation Commissioners, members attended the Land Summit in Keene, an invasive pest workshop and a six night conservation training program sponsored by the Monadnock Community Conservation Partnership. These members then briefed the rest of the commission on ways this information could best be used to benefit the town.

Membership

Our meetings are open to all residents and we welcome anyone interested in sitting in on a meeting or becoming a member of the conservation commission. Meetings are usually held the second Tuesday of each month at 7 p.m. in the town hall.

Respectfully submitted,

Eric White

Chairman

ENERGY COMMITTEE

Since the Selectmen approved the formation of the committee on March 30 as an advisory group to help them reduce energy costs, the committee has:

- Collected data from 2005 and 2009 on town expenditures for electricity and fuel. The data show that total expenditures for energy increased by \$14,822, an increase of 57.6% on the 2005 base of \$25,735.
- Committee members did a walk-through of each of the four town buildings, making observations about problems in heat retention.
- The selectmen applied for and received an energy audit for one building subsidized by the New Hampshire Municipal Energy Assistance Program.
- In December, the auditor did a walk-through of all four town buildings and decided that a formal energy audit of the library would offer the most energy savings opportunities.
- At the January 11, 2010, meeting of the selectmen, the auditor showed pictures of the areas of the library that could reduce the considerable heat leakage. Members of the committee suggested that another building be audited in order to make another building part of the proposed application for Energy Efficiency and Conservation Block Grant (EECBG) grant program funding for retrofitting. The road agent suggested it would be appropriate for the conservation commission to expend some land use change tax for this energy conservation project.
- At its January 12 meeting, the conservation commission voted unanimously to provide funding for energy audits of the fire station, town hall, and highway department so that all energy deficiencies might be identified and the most significant (and financially feasible) be funded, should the town gain grant money.
- Application will be made by the selectmen in mid February, 2010, for up to \$400,000 to cover the cost of making the town buildings more efficient.

The energy committee looks forward to future projects to conserve energy and save the town money over the long term, particularly as energy prices increase. It will continue to report its activities in the town newsletter. New members are always welcome.

Respectfully submitted,

Ann Sweet

Ashuelot River Local Advisory Committee

Washington Lempster Marlow Gilsum Sullivan Surry Keene Swanzey Winchester Hinsdale

2009 Annual Report

The Ashuelot River Local Advisory Committee (ARLAC) was established in 1994, one year after the Ashuelot River was enrolled into the State Rivers Management and Protection Program. Since then, members, nominated by local municipal officials and appointed by the Commissioner of the Department of Environmental Services (DES), have been educated in a broad array of issues associated with the River and its watershed. It is the hope of the committee to be a resource that works well between the interests and concerns of the citizens in the watershed and State authorities.

The volunteer Ashuelot River water quality monitoring program in conjunction with the DES Volunteer River Assessment Program (VRAP) continued for its ninth season. Twelve sites were sampled along the River's 64-mile length from Washington to Hinsdale, and two sites along the South Branch of the river. Analyses were done for temperature, pH, total phosphorus, dissolved oxygen, turbidity, chloride, and conductivity. This year Conservation Commissions along the river donated funding to support *E. coli* testing. ARLAC members, working with community volunteers, participated in a spring training session, leading into a five-month effort of sampling monthly from May through September. *E. coli* samples were obtained in June, July, August and September; phosphorus in June, July and August. An initial review of the data indicates that *E. coli* levels were lower than in previous years with few spikes of elevated values. This may be a reflection of more consistent river levels due to the regularity of rainfall, keeping the bacteria levels diluted and even. The pH values continue to show a decline in the headwaters meaning a more acidic water column. The 9 years of data are available online at <http://academics.keene.edu/pegglest/AshuelotRiver.htm> or <http://www.des.state.nh.us/wmb/VRAP/>.

A regular task for ARLAC is to review and comment on state permit applications within the River corridor that may have potential impacts on the River. This year we submitted comments on projects proposed in Washington, Marlow, Surry, Keene, Swanzey, and Winchester. The projects included Alteration of Terrain Permits, Wetland Permits, Shoreland Permits and the disposal of state owned lands. Four site visits were made by members of the committee. ARLAC discussed hydroelectric projects on the river to include review of an application for Low Impact Hydroelectric Institute certification on two of the lower Ashuelot dams and a Federal Energy Regulatory Commission preliminary permit for hydroelectric development in Keene. ARLAC continued to follow NH legislation and rulemaking, commenting on the proposed stream crossing rules and supporting efforts placing all LAC's more directly in line to receive notifications of permits.

We continued participation as a member of the NH River Restoration Task Force and continue to support removal of the Homestead dam, advocating for public access after construction. Concerns regarding the stability of the Thompson Covered Bridge are being addressed and both projects are slated to be completed the summer of 2010. We also continue to participate in discussion of plans for replacement of the Rte 10 bridge over the Ashuelot River in Winchester.

This year the Hinsdale Planning Board voted to accept the Ashuelot River Corridor Management Plan as part of their Master Plan. The Keene City Council voted their final approval of the plan. ARLAC, with the assistance of the Southwest Region Planning Commission, has begun to strategize implementation of the Corridor Management Plan. After several meetings we set six priorities 1. Public education and outreach. 2. Water quality. 3. Protect, preserve and conserve flood plains riparian /wetland buffers /animal habitat. 4. Preservation of historical, archaeological and cultural features. 5. Promote public access. 6. Restoration of fish populations.

ARLAC co-sponsored the annual cleanup of the River from north of Ashuelot Park to West Swanzey as part of the Source to the Sea cleanup. A total of 130 volunteers picked up 2,847 pounds of trash and 31 shopping carts during this October event.

The Committee meets each month, on the third Tuesday evening in Keene. The Local Advisory Committee invites citizens and town officials to contact their local ARLAC representatives or the Southwest Region Planning Commission for more information.

Respectfully submitted,
Barbara Skuly, Chairman

2009 Membership: Linda Fuerderer-- Marlow; Pablo Fleischmann - Gilsum; John Davis--Surry, Jim Holley, Emily Hague, Dan Farina--Keene; Barbara Skuly, Stephen Stepenuck - Swanzey; Dan Carr-- Winchester; Serena Benedict--Hinsdale
